Gloria

We are planning on doing offsite sampling to obtain background information. The contractor has identified specific landowners to get access agreements from and will be sending out access agreements to those persons. Would you prefer that I wait until after you have contacted Mr. Bergner before I try to contact LTRI?

Thanks

Gloria

I have received the attached Blank Access agreements from our contractor for conducting sampling at the site and for conducting background sampling offsite. Please let me know if there are any issues with either agreements or if you have one that you would prefer that the contractor use.

Thanks

Subject: Falcon Refinery RI/FS (TO088) - Proposed Access Agreements

Brian:

Attached are two versions of the proposed access agreements for the Falcon Refinery RI/FS activities. The first (Background) will be used to gain access for the background sampling. The second (On-Site) will be used should we need to obtain access to portions of the Falcon Refinery site that is occupied/owned by someone other than the PRPs. If EPA already has access agreements to the refinery property, the second type of agreement will not be required. We have used the access agreements that were used for the Donna Canal RI/FS as the template for the proposed agreement. Please review the proposed access agreement and let me know if they can be used or if changes need to be made.

Thank you,

Bob Owens
